MERN Stack Developer currently pursuing the Higher Diploma in Software Engineering (HDSE II) at Aptech Computer Education. Skilled in building responsive and scalable full stack web applications using MongoDB, Express.js, React.js, Node.js, JavaScript, HTML, CSS, Bootstrap, and Git. Passionate about creating clean, user-focused applications and continuously expanding my expertise in modern web technologies. Seeking an opportunity to contribute to innovative software projects while growing as a Full Stack Developer.

EXPERIENCE

MERN Stack Developer (Academic Projects) · Aptech Computer Education

Aug 2026

Karachi, Pakistan

- Developed responsive full stack web applications using the MERN stack as part of academic and personal projects.
- Built reusable React components and responsive user interfaces.
- Created RESTful APIs using Node.js and Express.js.
- Integrated MongoDB databases with CRUD functionality.
- Used Git and GitHub for version control and project management.
- Collaborated on real-world academic projects following modern development practices.
